## BOOK NEWS.

The significance of the theme of William Allen White's novel, A Certain Rich Man, has made itself apparent at once. Published on July 21, the Philadelphia Public Ledger has declared that the book marks a turning point in American literature. "The annals of all nations," it says, "established the fact that out of the maeistrom of some epoch-making convulsion there emerge the great national literary spokesmen. We have been waiting for our great American novel for over a century. Our civilization was too unformed during the crises of the Revolution, the Wanted State of the Revolution, the Wanted State of the Mexican war, to produce this inspiration, and the passions furies, politicel errors and final reconstructive period following our great civil war deferred the national expression, which even then would have been somewhat immature."

distinctive American type, and an economic revolution has transformed the country.

"Hence the hour had come for the great American novel, for a clear, unmissiakable utterance which would established effinitely a typical American expression, and erect a standard of the genius of our race, the spirit of our people, the limiting in definite strokes of our national characteristics, morals and habits as distinguished from those of any other people of American and brilliantly contributed to current and brilliantly contributed to current Man bits fair to exceed the popular vogue of David Harum and marks a turning point in American literature."

After outlinging the story, the development, physical, financial and spiritual of John Barclay, the reviewer describes the effect of the country's moral awakening upon the hardened financial plrate and his conning, through disagness. "Charles the effect of the country's moral awakening upon the hardened financial plrate and his conning, through disagness."

This thought." concludes the Public Ledger. "is the dominant note, the lesson that it so efficiently and convincingly teaches—but do not conclude that the book is a dry, economical disquisition with muck-raking characteristics. Far from it. Throughout it pulsates with humor, interest, passionate love adventure, pathos—every page is woven with threads of human nature, life as we know it, life as it is, and above it all a spirit of righteousness, true piety and heroic patriotism. These inspire the author's genius and fine literary quality, thrilling the reader with tenderest emotion, and holding to the end his unflagging and absorbing interest."

It is an interesting coincidence that Paris, which Justus Miles Founan chose for the setting of "Jason." his novel just published by the Harpers, is also the place where the author wrote his first story.
